100 Dollars Reward.

I WILL give the above reward to any person who will return to my possession, negro LAWRENCE, who assumes the sirname of FENWICK. This fellow left my farm, on the Wicomico river, in Charles county, Md. on the 6th July, in consequence of his own outrageous conduct towards my overseer. He is a negro of a fine erect figure, good features, a smooth black skin, rather above the middle stature, of a youthful appearance for one of thirty years of age, and of great plausibility and natural smartness. His ears grow remarkably close to his head, and on the inside of his lower lip he has a white mark or spot. I purchased him 4 years ago of the estate of Mrs. P. H. Courts, of this county. I am led (by circumstances which have come to my knowledge since he absconded,) to believe that he will endeavor to make his way to King George county, Va.; should he not take this route, he will probably be met with in the District of Columbia, or in the upper counties of this state, on his way to Pennsylvania. I apprehend he will change his name, and if committed to jail, refuse to state to whom he belongs, as the misconduct which preceded his departure, & his absconding, have all appeared since to have been premeditated. He took all his clothes with him, of which he had a large number; among them—a new bear-skin over-coat, a long close-bodied blue coat, a pair of striped jean pantaloons, one or more white waistcoats, besides many articles of coarse cloathing; these, however, he will probably exchange, or sell them for cash to defray his travelling expenses.

I will give the above reward to any person who will bring him home to me, or *FIFTY DOLLARS* if confined in jail, and notice given me, so that I recover him.—Should he be taken out of the state, I will also pay all reasonable costs and charges which may attend the bringing him home.

To Wheelwrights, Blacksmiths, Tanners, Harness-Makers, Saddlers, Hatters, &c.

BELIEVING as I do, that PROVIDENCE, at Fairfax Court-House, would be a suitable situation for mechanics of the above description, I offer to such, lots in that village for sale, on ground rent for ever—will build and furnish suitable houses and rent to them, or furnish brick to them to build with; and invite any who feel disposed to settle there, for the purpose of carrying on their respective trades to advantage, to come and view the situation. It is a very public place, the centre of the county, where the superior and county courts are held. The Little River Turnpike Road passes through this little town from Alexandria westward, and where all the public meetings for the county, &c. are held; and where trades of the aforesaid description being carried on, would meet with great encouragement, and be a public convenience to the country around. No situation can be more healthy—good water, and fire wood cheap. Mechanics of the above description must generally depend on the country people, farmers, &c. to be their customers. Here they would be in a convenient situation for all the purposes. I invite a call, and view for themselves. I would also furnish lots adjacent, from one to five acres each, for cultivation, pasture, &c. on moderate terms; all of which can be shown, and terms made known, on application to RICH'D. All masters of vessels are forewarned from harboring or taking into their employ said negro, under penalty of having the law rigidly enforced against them. Missouri and Illinois Bounty Lands

THE subscriber has now for sale a number of the most valuable tracts, in both of those rich and improving bodies of lands, and can supply applicants with any number they may wish, and in any part of either territory. Every person who visits the Western Country, particularly those who intend settling there, should take with them a few quarter sections of those lands; every man who has a young and growing family, and can spare a few hundred dollars, should not miss the present opportunity of getting some of those lands; as it will insure to his children a greater certainty than any other investment he can possibly make for their benefit.—From the immense emigration to both Illinois and Missouri, particularly to the military lands, it is certain there must be a great rise in the price very soon, and those who miss the present opportunity, will never again have a chance to do so well. The patents will be sold very low, for cash, good notes or bonds at short dates, or bank stock in the Central Bank of Georgetown and Washington, and the Farmers and Mechanics' Bank of Georgetown. As I am a large dealer in *Military Bounty Lands*, I can supply any number that may be required.

WEDNESDAY, AUGUST 25, 1819.

It gives us very sincere pleasure to learn that at a meeting of the members of the First Presbyterian Church, this day, the death of their late pastor, the Rev. Dr. INGLIS, was taken into consideration, when the most liberal and provident measures were adopted to provide, substantially and permanently, for his young and numerous family; and the most delicate and honorable notice was taken of the lamented dead.

[*Baltimore Patriot.*

From the Middletown, (Con.) Gazette.

OUR MEDITERRANEAN SQUADRON.

An unpleasant circumstance has lately occurred among some of the principal officers of our squadron in the Mediterranean. Four captains and one lieutenant have been suspended by Com. Stewart, our Naval Commander in Chief upon that station.

According to the best information, the four captains and the lieutenant above mentioned, were members of a Court-martial, and pronounced a sentence which was disapproved by Commodore Stewart, who also (by what authority we know not) reprimanded them. The officers, conceiving that he had no right to reprimand them, replied to him—he took offence at their reply and suspended them.

This affair, will, probably, be soon investigated by some proper tribunal. Until that enquiry takes place it is better that public opinion should not be prematurely formed or expressed. From a long acquaintance, however, with capt. Macdonough, who is one of the officers suspended. we cannot believe, unless we have strong evidence to prove it, that his conduct on this occasion has been either precipitate or improper.

St. Louis, July 21.

SPECIE OF WAR.

The National Intelligencer gives the substance of a letter from the Arkansas which mentions an outrage committed by the Cherokees upon the Osages. The injury stated is the robbery of forty horses and the killing of four men. We had not heard of this affair, although some of the Osage chiefs have been in town for some weeks; and thence infer a belief that the statement is incorrect.

A difference is, nevertheless, brewing between the two tribes.

The chiefs now here have come to complain to Governor Clark of wrongs done them by the Cherokees.

About two years ago a band of Cherokee warriors attacked a hunting party of Osages, killed many, and captured a number of women and children, which they led home in bondage.

Before the Osage nation could revenge the injury, Governor Clark interposed, offered his mediation, and effected a treaty of peace. This was done at St. Louis, October 1818, when a large assemblage of the chiefs of each tribe was present. By an article of this treaty the women & children captured were to be restored, and the boundary line between the nations run and established, under the authority of the U. States.

Now, the complaint of the Osages is, that the captives have not been restored, nor the line esablished; and that the Cherokees intrude upon their hunting grounds. And the chiefs here come to give notice to the U. States, as the guarantee of the treaty, of these infractions, before they proceed to redress themselves.

The Osages, a few years ago, were the terror of all neighboring people; gigantic in their stature, and ferocious in their disposition. They are still remarked for their lofty stature and fine persons; but their ferocity of temper has yielded to the influence of civilization. They are now accounted the most peaceable of all the Indians. In 1806, Capt. Pike, who visited their towns, said that they had become quakers in their policy and cultivators in their habits. Their conduct with the Cherokees has corresponded with this character; and it is greatly to be desired that the efficient interposition of the government may confirm them in the habit of appealing to the United States for the redress of their wrongs.

[*Enquirer.*

Poughkeepsie, August 18.

The cadets from West Point, to the number of 250, under the command of major Bell, left that place in the afternoon of the 10th instant; they arrived in this village on Friday last, about noon, and immediately encamped. They were met a short distance from this place by a detachment of the fusileer company commanded by captain Valentine, together with a number of citizens, and escorted into town. They are a body of fine looking young men, in whom are centered the "best hopes of the nation;" and have attained a height in military science that reflects credit upon the institution in which they are educated.—On Saturday they marched through our streets, and returned to the field of encampment, where they performed a variety of military evolutions, which, joined with the excellent music of their band, gave great satisfaction to the numerous spectators.—Their exercise and manouvres exhibited great attention to discipline and duty, were highly honorable to themselves, and promised future usefulness to their country.—They are obliged to submit to all the fatigues of a soldier's life, in marching, standing guard, and performing the duties of the camp. The urbanity and general deportment of the cadets were conclusive that the blandishments of the citizen are not lost by their being united with the sterner qualities of the soldier. The unpleasant weather of Monday deprived the spectators of witnessing a further display of military tactics. On Monday evening a ball was given to the cadets, at L. B. Van Kleeck's hall, by the citizens of this village, which, for numbers, beauty, and fashion, was never excelled in this place.

Charleston, August 17.

Captain Lucas Minas, of the schooner Francisco, condemned in this city, for piratical practices, has been recently arrested in St. Augustine, on the charge of being concerned in the plunder of the brig Ann, on the coast of Florida, and the murder of her crew. It was found, however, on examination, that there were not sufficient grounds to convict him of the above charge. But it appearing that he had taken a cargo of coffee and sugar from the above vessel, he has been sentenced to ten days imprisonment in the above place, and to defray the costs of the suit attending a prosecution, for not reporting the transaction on his arrival in this city.

Camden, (N. J.) August 17.

An air ship is preparing in this place, to ascend with a man in it. The event will probably take place the first calm and pleasant day, after two or three days of dry and pleasant weather.

[Upon inquiry, we learn, that the air ship above spoken of, is a skeleton of wood in the form of a ship, encompassed with silk, which is to be inflated with inflammable air. To the ship is to be attached a boat with a rudder, oars, &c. &c. The ingenious inventor is so confident that he will be able to steer the air ship, that he has gone to considerable expense in his arrangements. We are told it is contemplated to raise the ship on Saturday next.—*Democratic Press.*

From the Baltimore American, August 23.

HEALTH OF BALTIMORE.

When Doctors differ, the public will also differ—Difference of opinion, however, often arises from error in judgment, from a fond attachment to theories, and sometimes, it is said, from ostentation—Be these things as they may, facts are better than either theory or ostentation; and when 26 respectable physicians assure us, "that not a solitary case of malignant or suspicious fever exists on the west side of Jones' Falls," we must believe their assertion, more especially when it is corroborated both by information and observation. That some highly billious cases have occurred in the vicinity of one particular spot on this side of Jones' Falls, is not denied, for such cases will always take place in so hot a season as we have lately experienced, but that malignant cases generally exist, we sincerely believe to be without foundation.

What has happened in the late hot weather, no doubt, will be a solemn warning to the rulers of our city, in future, to exert their authority, *in due time*, to prevent all public nuisances in every quarter of the city, without favor or partiality—and should teach house-keepers and individuals of every description, that cleanliness, sobriety, and a regular mode of living, are the best preservatives of health, whether in cold or hot weather, but more especially the latter.

Besides the reports of the 26 physicians, and the best information we can obtain, our opinion is corroborated by the following extracts from two respectable Journals, the Editors of which have also the best opportunities of being well acquainted with the present state of the health of our city:—

From the Patriot.

The reports of 26 physicians residing west of Jones' Falls, have been handed in at the Mayor's Office, and will, we hope, be immediately published—as they establish the important fact that not a solitary case of fever, billious, "malignant," or "suspicious," occurred in that portion of the city, within the same period of twenty-four hours, that nine cases, "malignant" or "suspicious" are reported at the lower end of the Point, as published in the Patriot yesterday; which clearly proves the existence of some local causes, entirely unconnected with the general health of the city. We also learn that the bills of mortality exhibit a considerable decrease in the number of deaths since the report.

From the Gazette.

Those at a distance, relying on false or exaggerated rumors, are displeased with our city authorities and public prints, because we do not publish to the world, that a dangerous epidemic is raging in out city, when, except in a very few instances confined to certain peculiar situations, the city was never, at this season, more free from disease. At home, every man, from his own observation, is convinced of the general health of the city, and of the safety with which the inhabitants may continue to reside in every part of it except those particular spots, small in extent and well defined as to limits, which are only dangerous from local causes—yet by many it is anxiously urged, that every particular case of sickness, which is either known or suspected to be a fever of any kind, shall be published, with the place of residence of the patient—forgetting, that while such publications will prevent all alarm in this city, they will increase the alarm abroad.

It is proper that we should state as explanatory of the *nine new cases* of fevers malignant or *suspicious*, reported yesterday, that they are all located at the lower end of Fell's Point, and obviously caused by a nuisance in the immediate vicinity. Twenty six physicians residing west of Jones' Falls reported that in that district, which includes the great body of the city as distinguished from Fell's Point, not a single case of malignant fever had occurred.

We also learn, that the bills of mortality exhibit a considerable decrease in the number of deaths since the last report.

AN INCORRIGIBLE VILLAIN.

On the third day of July, Thomas Clyde, a young man, was brought up to the police office, charged with having stolen shoes from the store of Mr. Jacob Scofield—the property was found on him, and he was committed for the felony. Through some error, either the witness not appearing before the grand jury or the mistaken humanity of the grand jury themselves, no bill of indictment was found, and Clyde was discharged. On the 21st of the same month he was again brought up before the magistrate, charged by H. Barrere with having stolen glasses from his garden in Chatham-street. Part of the stolen goods were found in his possession, and he confessed the felony. The police now thought they had him safe; but in this they were mistaken. To their astonishment, an order was sent on Tuesday, 10th instant, to bring Clyde from prison into court, in order to his being discharged by proclamation, as the grand jury, then sitting, had found no bill against him. On enquiry as to the cause, one of the magistrates was informed that Mr. Barrere did not appear before the grand jury; therefore, they threw out the bill, having no witness before them to sustain the prosecution, (by the bye the deposition of the magistrate of Clyde's confession of the felony before him, was sufficient, in law, to find a bill on; and on such testimony the same grand jury found several bills). Clyde was accordingly discharged by proclamation—the committing magistrate at the time given his opinion, that before the expiration of twenty-four hours, he would commit another felony. Thus fortune or chance appeared determined to snatch Clyde from the arm of the law, and that his punishment should not extend beyond the commitment of the police magistrates; however, public justice has once more another chance with Clyde, and his destiny. On the 12th August, instant, two days after his discharge, he was again bro't up, charged with having stolen a gold watch, gold seals, keys, &c. from the store of Mr. Clement Davidson, No. 40, Fulton-street. In this case, part of the property was also found in his possession; and he is now, the third time within a few weeks, committed to prison. This last charge amounts to grand larceny; consequently, if convicted, punishment in the state prison. It now remains to be seen, what shall be the issue of the third struggle between justice and Clyde's fortune, and if a mistaken commisseration and sickly humanity shall again turn him loose to rob honest men.

Richmond, August 20.

DESTRUCTION BY LIGHTNING.

We have to record another melancholy case of destruction by lightning.—On Wednesday evening, the whole heavens seemed covered with dark and angry clouds. These were charged with an unusual quantity of the electric fluid. The peals of thunder were rattling and frequent, and flashes of lightning, sharp and vivid, came in rapid succession. About 5 o'clock the rain fell in torrents. The whole surface of the earth was covered in a few moments with water; and where the decent was considerable, it rushed down with surprising impetuosity. The hills of the Capitol square, where they were not protected by turf, were washed into large gullies. The pavement on Governor's street, which has a considerable descent, was washed up—many of the gutters on the different streets, sustained a similar injury.

A young gentleman, of the name of Allen was on the Church Hill, in the house of his mother, a widow lady, we understand, from the neighborhood of Williamsburgh. A stream of lightning struck the gable end of the house, on the side he was standing, passed almost in a direct line down the wall and struck him as he was standing. it is it is supposed, with his head reclining against the window frame. He was instantly seized with strong convulsions and expired in about twenty minutes.

A lady, perhaps a sister of the deceased, was above stairs, seated at the window, and immediately over his head. She did not touch the side of the house; to which circumstance her preservation has been attributed; but the shock was so great as to drive her several feet from her seat to the middle of the room. The only injury which she experienced, was a certain numbness of the body and the limbs, which were inclined towards the window.

Mr. Allen's brother was in the same room with him, on the opposite side—he felt the shock, but received little or no injury—like the lady above, he was in no contact with the side of the house.

From the New York Daily Advertiser.

Whilst every body complains of a hot summer, and hard times, there is a good degree of variety to be found in the general state of things in our country. For example—

IN AGRICULTURE.

"The former harvest," as far as we have heard throughout the country, has been abundant, excellent, and gathered in finer condition, than was almost ever known.—With regard to bread, we have every reason to be thankful—we shall have it in plenty, and of a quality that must satisfy the most scrupulous and delicate appetite. Hay in some places is cut short by the backward spring, in others the crop was large, and in all it was made in the best manner, and the quality is very superior. In some parts of the country the drought began early, and has been very severe—so much so, that the face of the earth has for weeks presented the most parched and dreary aspect. In this respect, the country has been unusually chequered and diversified. The rain that has occurred has fallen in showers—in some small tracts the earth has been deluged, in others, hard by, the drought has been almost uninterupted. Many of the showers have been very extraordinary. In one instance, one of the large rivers was raised more than seven feet by a shower near its banks.

"The latter harvest," will be good in some places and in others nearly destroyed. The Summer feed for cattle has been in many places entirely burnt up by the drought—so much so, that the farmers have been under the necessity of feeding their cattle from the barn. There has been an unusual quantity of thunder and lightning in the country this season, and a great deal of damage by the latter.

In Trade, there has been more monotony—times have been literally dull, the banks have been embarrassed, their paper. of course, depreciated, many of them, as our countrymen say, have "*pulled in the string*," declining to pay *for the present*, and promising no great for the future. The state of things is not, however, without its use. Finding an obsolute necessity for a change, men, and *women too*, have grown more economical—they expend less, and will find the benefits of the new system in a saving of the comforts of competence and independence.

In Manufactures, a great effort is making in some parts of the country, particularly in Pennsylvania, to revive them, as the only remedy within our reach for the general maladies. It is probably intended that this subject shall be pushed at the next session of Congress.

In Politics, in many parts of the country there is a dead calm, in others small local controversies, and in a few of the large states, a warm and animated struggle is brewing for the *state sovereignty*—just enough to supply newspapers with fresh matter of the same sort from day to day and from time to time, and to prevent that total, and absolute stagnation of feeling, which is supposed by some visionary politicians to be omnious of public danger, and sometimes public ruin.

In short, what with charitable institutions, Saving Banks, Agricultural Societies, Emigration Societies, and Manufacturing Associations, with the advantages of industry and frugality, by the blessings of Providence, we may reasonably hope to have "food to eat and raiment to put on;" and if we properly notice and improve our reverses and trials, even they will not be without their advantages.

From the Boston Patriot, August 18.

We yesterday received Halifax papers to the 7th inst. The lieutenant governor had issued a proclamation, giving the substance of a despatch from Earl Bathurst, in answer to an application of the General Assembly of Nova Scotia, to annex the Island of Prince Edward to that province, in which he stated, "that the Prince Regent sees no reason to make any alteration in the existing constitution of the colony, nor to sanction any change in the forms which are now observed as to the appropriation of the colonial revenue."

FROM ENGLAND.

By the Herald we received London papers to the 30th of June, and Liverpool papers and prices current to the 2d July.

A very extensive printing establishment in London, belonging to Messrs. Bensley & Son, was lately destroyed by fire. The whole loss is estimated at 130,000*l.* of which only 30,000 was insured.

The infant daughter of the duke of Kent was baptized on the 24th of June, and received the name of *Alexandrina Victoria.*

A paragraph under the head of St. Petersburgh, May 21st. says—"Some personages of distinction think that the emperor will again make a long journey in the course of this summer, with the intention of conferring with his august allies on the present state of Europe.—There is a rumor of California having been ceded to Russia—but it comes by the circuitous route of Canton."

FROM MALAGA.

A letter dated Malaga, June 19th, says, "Flour may be exported from St. Andero, and received at Havana duty free. This must answer well for speculators, at this moment, when grain is so abundant and cheap in this country. Licences in foreign bottoms hence for Havana, are still suspended, and a number of English vessels are in port waiting their renewal, which is still doubtful. Your reduction of duties on our wines, will I hope augment the consumption of them in the United States.—You used to once consume treble the quantity you appear to now." Another letter of June 26, says: "Fruit will be abundant, and I believe cheap, this year, but there is nothing that can be sent here to profit. The duty on wheat has again been augmented; and did they allow debenture, we might make it answer to send you a shipment. Wheat pays 11rs. vn. per fanega, duty!"

EXTRACT OF A LETTER, DATED

Oporto, June 15.

"Since our last advices the government have thought proper (without giving any notice whatever) to impose a duty of 80 reis ley per alquiere on foreign wheat, and 100 reis ley per alquiere on foreign Indian corn, whereby all importations from the 20th ult. are charged with this tax.

"Only three ships with Indian corn have arrived at this port from the United States, since the above impost was laid on, and one of the cargoes from *Alexandria* was sold yesterday at 320 reis metal per alquiere, a price, which after deducting the above mentioned duty and charges, leaves about half a dollar per bushel to pay the invoice cost, insurance and freight. We therefore, as recommended in our last, cannot encourage you to make shipments of corn to this market for the present, but immediately on the stock on hand being reduced, and when any favorable change takes place, you shall be advised.

"Wheat, flour, &c. remain as per our last advices. Exchange on London, 57d. per 1000 rs; Agio 18 5-7 per ct. dollars 850 rs. each.

We are &c.

Nine criminals escaped early this morning from the penitentiary in this city, one of whom was immediately afterwards arrested by some of the city watchmen, near the Unitarian church.

Of the circumstances attending their escape, we expect to be enabled to give a full and correct account to-morrow; at present we will merely state, that they escaped from three different rooms, three from each, and evidently were aided by at least one person who was not in confinement. Valuable Land for Sale.

THE subscriber will sell at private sale, the tract of land on which he lives, containing about

Fifteen Hundred Acres.

It joins the town of Warrenton, the seat of justice for Fauquier county—It is 42 miles from Alexandria, the city of Washington and Georgetown; 40 from Fredericksburg, and 45 from Winchester. This estate, in a neighborhood celebrated for health and good water, is well adapted to grazing and to the growth of corn and wheat. The turnpike road leading from Alexandria to Warrenton is finished, with the exception of seven miles The improvements are a

two story house, about fifty feet long, in the suburbs of Warrenton; two houses for overseers; a large barn, stables, and every necessary house for a farm. On the property are 3 good apple orchards, and a variety of other fruit trees. This tract is now divided into two farms—each of which has a superabundance of wood, and is laid off into six fields under good fences, with running water in every field. I believe there is a sufficiency of stone on the land to enclose the whole tract. Both farms have been under a course of clover and plaister for several years, by which they have been much improved, as the plaister acts with very great effect. The subscriber will divide the tract to suit purchasers. The terms are one third down, with an accommodating credit on the balance, if he sells a part; but only one fourth if the purchaser buys the whole tract, together with the stock of horses, cattle, sheep, hogs, the farming utensils of every description, and all the provision that may be on hand for the support of the farm.

JOHN HOPKINS

Hill and Dale, April 20.

Gunston for Sale.

THIS elegant estate is situated on the Potomac, 16 miles below Alexandria—it is bounded on three sides by the Potomac and Pohick creek, and contains nearly 3,000 acres of land, level and fertile, to which are attached six shad and herring fisheries, two of which command the river channel. This land will be laid off in four tracts, so as to have one or more fisheries to each; these tracts will be again divided if requisite. This estate is level and beautifully situated, very fertile, and remarkably healthy. Plaister acts with an effect equal to that of any part of Virginia or Pennsylvania.—I have used 500 bushels in twelve months, and such is its beneficial operation, that were I to keep this land I should considerably increase the quantity. A manufacturing mill is distant about two miles, on a stream navigable for vessels carrying 1200 bushels of wheat, where the Baltimore and Dist. of Columbia prices are given for grain: being bounded on 3 sides by water, a small extent only of fence is necessary to inclose the whole: it would be admirably adapted to grazing. The improvements are a large and very

substantial brick mansion, 40 by 70 feet, with every necessary out-house, three commodious barns, houses for Negroes, and fish houses at each of the fisheries. 120,000 bricks and 1000 bushels of lime are just burnt on the premises. There is a considerable extent of live fence, both useful and ornamental, two orchards of well selected apples and peach, besides an abundance of other choice fruit. More than 150 acres are in clover, 200 in corn, and land is in preparation for sowing 250 bushels of small grain. Any quantity of hay can be cut from the low grounds, some of which (and all might,) have been reclaimed at a trifling expense. The river and creeks, abound with wild fowl, particularly canvass backs, the woods with deer and a variety of other game. Mules, cattle, highly improved sheep, farming utensels and household furniture can be had. The terms of sale will be accommodating. Property in any of the cities, negroes, bank stock, western lands, or lands near the Ridge, will be taken in payment.—Letters must be addressed to me at Pohick Church, Fairfax county, Virginia.

S. Drew, Merchant Tailor,

Removed from Fairfax-street to the corner of King and Columbus streets, and his prices falling

RESPECTFULLY acquaints his customers and the citizens in general that he has removed as above, where he will study to give satisfaction. He has by him a small but well assorted stock of goods, which will be found on inspection to be of the best quality, the whole of which he wishes to sell low for cash, and as further inducements to purchasers he offers to cut out any goods, bought of him to any size or pattern gratis.

S Drew aware, of the advantage a ready money business has over one where long credit is given, thinks that a distinction ought to be made in the prices in each case: and as the price of provisions are low at present, he is glad to be able to announce to those customers who will feel disposed to pay him ready money for his work, that he will reduce the price of making to them according to the present journeymen's wages; and to prevent any supposed imposition on the one hand or disatisfaction on the other he is willing to be governed by the printed regulations of prices by which the journeymen are paid in Alexandria.

N. B. Bread, flour, beef, groceries, liquors or any thing valuable taken in exchange for clothes.

S. Drew has this day opened a tavern in the same house, where he has laid in a a supply of Philadelphia and the district porter and ale, together with liquors of the best quality, and he feels confident that he shall be able to give satisfaction to all who will please to favor him with a call.—He is fitting up his house for the accommodation of boarders, travellers, &c. and from its central situation, good beds and stabling, together with other requisites, he presumes that it will be found a convenient establishment. may 25

PROSPECTUS

Of a new periodical work to be published in the city of Washington, entitled the

Washington Theological REPERTORY.

EDITORS. { Rev. Wm Hawley, Washington,
Rev. Wm. H. Wilmer, Alexandria,
Rev. Oliver Norris, Alexandria,
Rev. Reuel Keith, Georgetown.

Assisted by several other literary gentlemen of the Protestant Episcopal Church.

IF any apology were necessary for this undertaking, it may be found in the fact, that there is no publication on a similar plan, in all that section of our country lying south of New-York, and but one in the whole of the United States. It has been matter of equal surprize and regret, that the Episcopal Church should be so far behind other Christian denominations, in similar efforts to disseminate the principles of religion and piety. At a period like the present, when the Lord is preparing his way on earth, by the most remarkable efforts of human agency, and the most wonderful operations of his providence and grace—when we perceive in every part of Christendom, a praise-worthy emulation to share in the glorious work of filling the earth with the knowledge of the only true God, and his Son Jesus Christ; it would seem criminal for any to withhold their exertions, however feeble, in the great enterprize of human happiness and salvation. The editors have, therefore, felt it their duty to make this humble effort to supply this acknowledged deficiency on the part of the church in this section of the country, and to bear their share in the common exertions of Christians to promote the Redeemer's Kingdom. And having obtained the services of a gentleman, in whose talents and principles they have confidence, whose time will be wholly devoted to the superintendence of the work, they feel encouraged to solicit the patronage of the public.

The publecation will be conducted under the immediate inspection and control of the above named editors, who will form a committee to review every article intended for publication. The principles upon which it will be conducted are those of the bible, as illustrated in the articles, Liturgy and Homilies of the Protestant Episcopal Church. As members of this church the editors will feel bound to support the Apostolical character of her institutions, the pious tendency of her rites and ceremonies, and the evangelical nature of her doctrines. But in these, and all other discussions, they hope never to loose sight of that great law of charity which teaches us to "preserve the unity of the spirit in the bond of peace."

Acting upon those catholic principles, so long and so successively pursued by "*The Christian Observer*," their chief object will be to inculcate sound theological knowledge, and to delineate and recommend pure and vital religion. They trust therefore, that while the members of every Christian denomination may find something edifying and instructive, none will discover any just cause for offence in the pages of this work. General subjects of biblical criticism, practical illustrations of scriptural truth, the biography of illustrious persons, evidences of the truth of revelation, essays on the history and polity of the church, reviews of interesting publications, religious, literary and philosophical intelligence—in short, whatever is connected with the promotion of religion, humanity and literature, will find a place in this repository.

The testimony of experience supersedes the necessity of dwelling on the advantages of a periodical publication on the plan proposed. Its obvious tendency will be to render the various departments of religious knowledge more easy and accessible, and give a more ready currency and wider circulation, to those great truths which involve the present welfare and future destiny of man.

It will tend powerfully to stimulate the exertions of the editors, and console them under the difficulties attendant on the prosecution of this work, amidst many other avocations, should it prove the means under the blessing of God, of enriching any of its readers with the saving knowledge of Christ, and prepare them for a participation in the felicity and glory of his heavenly kingdom. With this hope they commit it into his hands, and confidently solicit their brethren of the clergy and laity to assist them in carrying into effect the objects of the undertaking.

TERMS OF THE WORK.

A volume of the Repertory shall consist of twelve numbers, of which one shall be published on the first day of every month, containing thirty-two large octavo pages, stitched in blue, and attended with a table of contents.

The paper used in the work shall be good, and the typography executed with the greatest care.

The price of a volume is two dollars, payable in advance; to such as omit the advance, two dollars and fifty cents.

It is designed to enlarge the size of the work, without increasing the price, as soon as one thousand subscribers shall be obtained.

Communications and remittances may be directed to any of the editors, post paid.

Any person becoming responsible for five subscribers, shall receive a sixth copy gratis.

The first number may be expected in the month of July. June 26
